

19 December 2017

Dear Parent/Carer

Thank you for the support that you have shown following my previous letter and any text correspondence you have received regarding our revision lessons on Wednesday evenings. The turnout we are getting surpasses anything in recent years and is being positively received by those who attend.

To support your child in identifying areas of weakness for the summer, they will be sitting a set of science PPE (Pre Public Examination) papers that cover the same content as the previous PPE when we come back from the Christmas break. These results will be submitted to PiXL who analyse thousands of responses in order to give us a better indication of the progress being made by your child.

Please could you encourage your child to revise over the Christmas holidays in order to achieve the most accurate assessment of where they are currently performing. This will not only allow us to see where they are doing well but also identify key areas of weakness that can be targeted with specific intervention, as outlined in my previous letter.

The dates for these examinations are:

Biology	-	Wednesday 10 January 2018
Chemistry	-	Thursday 11 January 2018
Physics	-	Friday 12 January 2018

There will be a range of revision resources going up on Show My Homework and Google Classroom in the next few days in order to provide support.

If you have any questions regarding this please do not hesitate to get in touch by email and I will respond as soon as possible.

Yours sincerely

Mr P Musson
Head of Science

Head of School (Primary Phase): Paul Jones Head of School (Secondary Phase): John Gilligan
Executive Headteacher: Helen Price
